## SABLE PLAID

Originating from the central Asian plateau, the Hircus goat lives up to an altitude of 6.000 meters. A thick, smooth and soft undercoat protects it from these particularly harsh climates. This is where the valuable high quality cashmere comes from, with an average thickness of 15 thousands of millimeters (micron), it is considered the thinnest and thus the finest in the market.

### TECHNICAL INFORMATION

Tartan with bias fringe on the short side and selvedge finish on the long side

Composition: 100% cashmere

Fringe 7 cm

Weight: 255 gm2

### COLOURS

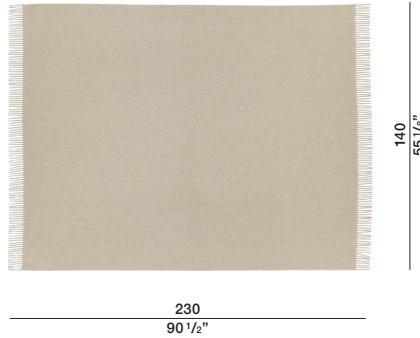

Beige \_ Hazelnut \_ Olive

### CLEANING

Dry-clean

## SOFT PLAID

This ultra light imperceptible yarn is the result of a careful selection of the most precious Australian merino wool fibre on the market. The rigorous choice of 16.5 micron raw material, guaranteed by long-standing relations with our suppliers, along with the professional care given to processing yield an ultra fine and inter seasonal yarn. Its excellent quality has won it the 140's Woolmark Company (international certification agency for pure wool) certificate in the 2/60 titre category, indicating the fineness of the fibre, precisely 16.5 micron.

### TECHNICAL INFORMATION

Shaded tartan with hem on the long side and blanket stitch finish on the short side

Composition: 100% merino wool

Weight: 180 gm2

### COLOURS

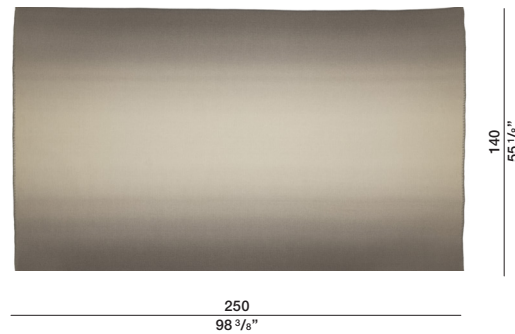

Dolomite \_ Olive \_ Rust \_ Mustard
