

Rockefeller

DINING TABLES

Rockefeller is an elegant dining table with a contemporary aesthetic. Its sculptural design is characterized by the contrast between solidity and lightness, stability and dynamism and light and dark shades. The robust appearance given by the thickness of the legs is counterbalanced by the delicacy and elegance of Travertino marble. The top with smoky grey finish - in contrast with the delicate tone of the legs - has a rounded shape, to give a sense of softness to the whole.

Dining table with honeycomb top in solid fir wood and MDF with internal reinforcement made of corrugated cardboard in rigid honeycomb and tubular iron reinforcements.

Upper part of the top veneered in Tay Dyed Smokey Grey with 4/4 inlay. Lower part of the top with matt Black Lacquered finishing.

Iron spacers supporting the top with Black Chrome finishing.

Legs in marble cat. B Travertino.
